

# Pineline Poultry and Meats

## 2021 Market Share Program

Welcome to the 2021 market season. The Marketshare we are offering, is a preseason buy in, minimum opening amount is \$500.00. The market share will be printed on a hard copy card with the amount you have sent in plus 5%. It is simple to use, just bring with you when making a purchase and we will deduct the amount of your purchase from the card total. If you use all of your funds, you can add at any time during the season and still keep on getting the additional 5% added on. The advantage to buying in early is:

- An automatic 5% addition to your card
- The freedom to choose what you want and how much you want from what is currently available at our stand or farm
- Freedom to come whichever weeks work best for you
- First consideration for some of our limited meat products

WE offer Grass finished beef and lamb, Pastured Pork, Pastured Poultry, Pastured Rabbit and some free range Turkey. Our farming practices do not include the use of hormones, herbicides, pesticides or routine use of antibiotics. We feed GMO free grains purchased from Ernst Grains and Livestock. We are caring Farmers, Raising Healthy Meats from Happy Animals.

## Please sign me up for the Market Share!
